

RAYMOND V. SEE

CONTRIBUTIONS TO THE
FACEBOOK BICYCLE STAMPS GROUP

Raymond See ha actualitzat la descripció del grup.

the facebook group was initiated by raymond see to bring together people who are stamp collectors and cyclists (although one or the other may also be invited). Most of the people invited used to be members of bicycle stamps club which was a specialty group a spin off from early days of THE SPOKEN WORD by FRANK HAVNOONIAN...BICYCLE STAMPS the initial issue by eccentric collector DOUGLAS MARCHANT of GB saw the first issue coming out in 1985. GRAHAM WADE became first president followed by several others.several contributors, SHIRO YAGAMI, TAKAO ONO, VOJTO JANKOVIC, JORDI QUINTANA, JARI MAJANDER, NORMAN BATHO, TONY TIEDEMAN , BRIAN SOLE has to be thanked for contributions to the magazine until 2009 when NORMAN BATHO passed away. This is not a competition to the original Bicycle stamps magazine. It is a complement., FACEBOOK is FREE. so i encourage people to put up add on any interesting photos of stamps relating to our hobby...OR put up your own private interest from time to time...should be OK. the collector. that is more important, than the bicycle issues on small pieces of very expensive paper. I welcome you to the group. I used to be Philippine connection of the old Bicycle Stamps Club...friend of most of the collectors here. Welcome to the group!

Philippines 1984 LA Olympic cycling stamp REAL USED on a cover. Steve Malone had been misled. This stamp is not listed in Scott BUT IT IS LEGAL TO USE IT AS POSTAGE ON PHILIPPINE MAIL OR INTERNATIONAL MAIL.

An article in BSC magazine served as reference to Steve Malone and puts the Philippine Post Office in bad light..SCOTT CATALOG IS WRONG TO CONDEMN THE PHILIPPINES FOR THE 1984 OLYMPIC ISSUE SPECULATIVE ISSUE. This issue is direct result of INDECENT PROPOSAL from Southern Stamp Agency (similar to IGPC) to print PHILIPPINE STAMPS at little or no cost to the Philippine Government with ulterior motives to earn fast dollar by printing and selling speculative issue red star imperf, blue star imperf to COLLECTORS. Plus CTO. I Repeat THE PHILIPPINE POST OFFICE IS NEVER TO BLAME..it had been offered a deal..it accepted because the philippine post office is CASH STRAPPED and POOR.

my wife headed for cebu island..for the vacation. cebu island founded 1521. by ferdinand magellan. Oldest city . ALSO its where in 1942-43. the stamp collector. OSCAR G GUIDO...collected letters sent by bicycle messengers....using rare USAFFE guerilla stampsUnited states armed forces in the far east, put in BISCUIT can all the letters and lose stamps.... and hide in hollowed wall of town church.....after war. he opened biscuit can....sold to collectors..the stamps and covers....over US\$200- 1800 per letter envelope..which GOT SOLD!

the set of 4 shown below not mine., internet foto. should be worth \$800-1200.

the cover is between \$800-1800..mostly addressed to collector OSCAR G GUIDO now living in a paupers hospice he is alone...and no family.

anybody with the stamps and cover during 1942-43 is under penalty of DEATH. rare items.

SMITHVILLE NEW JERSEY USA postmark that is bicycle related

101 year old advertising cover from the H. B. SMITH MACHINE CO. of SMITHVILLE, New Jersey.

The founder of the woodworking machinery and bicycle manufacturing company, Hezekiah Bradley Smith, was born in Vermont in 1816. About 1840 Smith moved to Lowell, Massachusetts, and developed a successful machinery manufacturing business which held some 40 patents. In 1865 Smith bought 2,000 acres in Shreveport, Burlington County, New Jersey. Smith renamed Shreveport "SMITHVILLE" and built the H. B. SMITH MACHINE COMPANY there. In 1881 Smith began the manufacture of "AMERICAN STAR" bicycles at his factory in Smithville. The bicycle of the early 1880's was the "highwheeler," and the Star line of bicycles was unique in that the small wheel was in front of the bicycle. Smith's bicycles were initially very successful and demand outstripped his ability to manufacture. One of the first bicycles in the United States to use pneumatic tires in the early 1890's was the Smith "Pony Star Bicycle." The founding Smith died in 1887, but his company continued well into the Twentieth Century.

Picture one shows the address side of the cover. On the left is a turn-of-the-century likeness of the "H. B. SMITH MACHINE CO." A steam locomotive approaches the bridge at lower left, while a steamboat approaches the factory dock at top left. In the middle of the envelope is a SMITHVILLE postmark from January 25, 1905.

Picture two shows the back of the cover. At the top in BOLD print is WOOD CONVERTING MACHINERY." Smith "Standard Quality" shields are at the left and right ends of the cover. At cover bottom is a likeness of a globe with the motto "STANDARD the WORLD over."

Raymond See the saddle is on top of the large wheel where usually it is above the small wheel. this innovation by the start bicycle maker is probably to prevent cyclist from toppling over easily when the steerable wheel run over a rock.

26 / desembre / 2011 a les 11:20 · M'agrada

Raymond See in later years the chain drive allowed the "safety" bicycle to have both wheels in size 28 and 27 inches in diameter.

26 / desembre / 2011 a les 11:21 · M'agrada

Raymond See the above ties nicely with the pstmark of SMITHVILLE. NEW JERSEY. even if the postmark do not show a bicycle. this is NEW RESEARCH...which will add pints to a bicycle exhibit shown at FIP WORLD LEVEL >

26 / desembre / 2011 a les 08:52 · M'agrada

Raymond See

"creating a rare aspect of the topic." the idea is to create a rare aspect of the bicycle topic such as repairing tire puncture during a bicycle race...as can be seen clearly. by legal loophole in the PHILIPPINE postal service. it was possible to REQUEST FOR SPECIAL POSTMARK when there is a VALID CELEBRATION or OCCASION. This was requested by me...on occasion of TOUR OF PHILIPPINES which was an annual event. THE DRAWING DESIGN APPEARING on the postmark. DRAWN BY RAYMOND SEE (the headless cyclist and the SAG supply and gears JEEPNEY) my car plate number i put on the jeepney. The purpose is not for FINANCIAL GAIN. But for obtaining original artwork, including a discontinued rubber handstamp...and an aluminum cachet used to make the rubberhandstamp. This was later incorporated into my exhibit. OF COURSE i paid the Philippine Pst office all incidental charges with the production of 6 official rubberhandstamp used for the postmark.

Raymond See

Les timbres-monnaies sont des monnaies de nécessité qui furent utilisées pour suppléer dans la circulation monétaire défaillante en espèces divisionnaires. Les premiers timbres-monnaies apparurent au second trimestre de l'année 1920. Le brevet de fabrication des timbres monnaies (FYP) est daté du 19 mars 1920. La fabrication semble avoir duré trois années environ. Des timbres de 5 centimes à 35 centimes furent employés pour fabriquer des timbres monnaies. Le 35 centimes violet est très rare et fut peu utilisé. On rencontre surtout sur les timbres-monnaies les valeurs de 5 et de 10 centimes. Les tirages, excepté ceux du Crédit Lyonnais, sont très faibles, mais ne peuvent être inférieurs à 1.000 pièces. Ils ne furent jamais reconnus par l'administration et ils furent mis en circulation à l'instigation de firmes privées, moyen publicitaire en même temps que monnaie de substitution afin de remplacer les pièces divisionnaires disparues ou thésaurisées..

again on the subject of the old CONCORDE BICYCLE POST local issue by FRANK CRAPO...i presume more than 11 pieces exists. I was telling people stories NORMAN BATHO found one as early as 1985 i think...from an estate sale. inside an old man's trunk and paid the small amount of \$200 (small for us..HUGE sum for a piece of paper in 1985) ..and then 2004 or 2005 there was an ebay auction for same stamp..and i offered \$500 for that one and after i paid the internet cafe OVERTIME pay from 12am to 3am in the morning...i lost my bid to SWISS GUY. and was third high bid. as the second high bid was FINNISH guy. i congratulated the SWISS and the FINN..and have remained friends with them..while both have the local by now. i have no luck at this time yet. I collected when i was but 30years. Im 49. and presume i will find me one in my lifetime.....:-) MERRY CHRISTMAS TO ALL!

The Express Post started in 1933 in Bulgaria as a special service in Sofia. The First Special Cancel in black, blue and red colours was introduced on 01.07.1937 and was used until end of 1939.

The special set of Express Post Stamps was issued in 1939 !!!!

The Special Cycling Postmark was introduced in 1941 and was used until 1951 !!!!

The Express Post Service was at the Beginning only for the town in Sofia as a Local Post Service.

The extra rate for the Express Post was 4 Leva. So total for a cover was 1 Lev + 4 Leva = 5 Leva.

Raymond See if my sane friends reading this...no no no..im not buying....im recording AUCTION DATA only.....😄

22 / agost / 2011 a les 11:30 · M'agrada

Raymond See may 14-15 2011 auction of david feldman

22 / agost / 2011 a les 11:30 · M'agrada

Raymond See 180,000 and the zero i didnt make mistake....😄

22 / agost / 2011 a les 12:05 · M'agrada

Jari Majander This is indeed insane... Even if the cover is (maybe) unique, the price is way too high, about 16000 euros or 23000 US\$, without the auction fees! On the other hand, I have never seen such a cover for sale or this is new information, thank you Mr. Feldman (I met him at PhilaNippon but forgot to ask about this cover). Also I don't know if Chinese traditional philatelists are interested on it.

22 / agost / 2011 a les 12:17 · M'agrada

Raymond See Its UNSOLD JARI....what we do not know is if its true....THE CHINESE BICYCLE STAMPS COLLECTORS hundreds of them whom we do not know....will eventually be buying this.

22 / agost / 2011 a les 12:28 · M'agrada

Jari Majander For that price I am happy to let our Chinese fellow philatelists to buy it. For that price you can get Sgt. Goodyear on complete cover, so which one would you prefer? 😄

22 / agost / 2011 a les 19:53 · M'agrada

Raymond See you should have asked RISING SUN PHILATELIC in philanippon JARI...she selling me in 1993 MINT SHEETLET OF 12 of MAFEKING CYCLING ISSUE for only 10,000 US\$ that is CHEAP..but in 1993..im barely sustain my cost of living with one wife and one daughter...😄

23 / agost / 2011 a les 01:15 · M'agrada

Jari Majander Maybe you should have bought the full sheet then... Now it is worth much much more. Also Her Majesty The Queen has one in her collections 😄

23 / agost / 2011 a les 22:23 · M'agrada

Raymond See yes yes..regret regret i didnt buy the full sheet...woah HER MAJESTY THE QUEEN has one of those in her collection?

23 / agost / 2011 a les 23:57 · M'agrada

Raymond See

BELGIAN BICYCLE STAMP This is a stamp from 1963, printed for the 80th anniversary of the Belgian cycling league. It has a surcharge, raising funds for the Belgian cycling team to race in the 1964 Tokyo Olympics. It shows an interesting track cycling sport (motor paced race, steherrennen, stayer).

Frama - Trishaw series intro

Historically the recorded appearance of trishaws in Singapore was in 1914. These were also termed as "pedal rickshaws". The trishaw is manually driven by the driver like a cycle and has space to seat one to two people. The trishaw is also an improvement over the hand-pulled rickshaw, and turned out to be a good occupational option for the immigrants from China.

sold for \$950 american dollars august 17 2011 by STAMPCIRCUIT..with the description as follows

Concord Bicycle Co., 1892-96, 12½¢ red and blue; Concord Bicycle Co., 1892-96, 12½¢ red and blue. Without gum, s.e. at left, bright and fresh; small corner crease at lower left and tiny perf tear at right, otherwise Very Fine, a lovely example of this rare messenger service stamp, with approximately ten examples recorded.
Estimate; \$500 - 750.

The Concord Bicycle Co., located in Concord, N.H. and operated by manager Frank H. Crapo, is reported to have run a public messenger service from 1892 to as late as 1896.

Raymond See one copy on an envelop appears in the BOOK of my friend Jean Pierre MANGIN....Le Cycle et Le Poste.....i wish Jari Majander is a member of this facebook research page.....he thinks its is a suspicious COVER....

17 / agost / 2011 a les 16:29 · M'agrada

Raymond See I have made extensive research on OSCAR GUIDO who in 1944 during the Japanese occupation on CEBU...had letters with CEBU GUERRILLA LOCAL POSTS delivered by bicycle messengers in MoalBoal, Dumanjug and some of the southern CEBU provinces..IT IS MY RESEARCH that i provided Frenchman Jeanne Pierre MANGIN that appears on the book LE CYCLE ET LE POSTEbut that is another story.i

17 / agost / 2011 a les 16:32 · M'agrada

Raymond See HELLO JARI read this story..and you be laughing hahahahaa

Raymond See Occasionally local stamps were issued in response to a strike that interrupted regular mail service.

An example is the Fresno and San Francisco Bicycle Mail, which operated July 6-18, 1894, while the American Railway Union went on strike and refused to move trains that included Pullman cars.

In those days, that was nearly every train, and as a result, mail was held up.

Fresno bicycle shop owner Arthur C. Banta organized local merchants to form a bicycle post to carry mail 210 miles between Fresno and San Francisco.

A Fresno and San Francisco Bicycle Mail stamp, Scott 12L1 is shown in Figure 2. The post carried approximately 380 letters before the strike ended.
